# THE BIG FIVE FOR

## Livingetc INDIA

### Raising a toast

The month of January is all about new beginnings, resolutions and plans for the year. For us, at Livingetc India, we have an even bigger reason to celebrate—we've just turned 5! Plus, over the past year, every single page in the magazine has been given a complete makeover and we've got our pulse on every millennial's design needs in the lead up to this landmark. To commemorate our fifth anniversary, we've invited the crème de la crème of the design fraternity to celebrate with us! In this special feature, we've asked 100+ top architectural and interior design practices in India to tell us what were the key takeaways from 2021 and what they're most excited about in 2022. Peel the pages to get insights into the minds and plans of these creative geniuses...

WORDS KRITI SARASWAT-SATPATHY

# Ekta Parekh, Rajiv Parekh, Apoorva Shroff and Maithili Raut

PARTNERS, RED (RESEARCH | ENQUIRY | DESIGN)

**In 2021, we learnt...** "We have always been collaborative. While most of the world shut down due to the pandemic, these collaborative principles kept us at reD invigorated and focused on trying to make a difference. We created products with Jaipur Rugs and Orvi Surfaces to raise funds for people suffering during the pandemic. Believing in our team and empowering them with responsibility has been another big lesson. Also, the strength of a designer lies in their ability to listen to the client's needs so that each project looks different from the other."

**In 2022, we are most excited about...** "We are blessed with a bevy of projects of all scales. We are doing two luxury celebrity homes, designing multiple chocolate stores for an international duty-free company and working on the master plan of a 200-acre, mixed development campus."

# Disha Bhavsar and Shivani Ajmera

PRINCIPAL DESIGNERS & COFOUNDERS,  
QUIRK STUDIO

**In 2021, we learnt...** "One is bound to get anxious, worried and impatient with everything that's going around, but listening to your gut, believing in what you bring to the table and what you can offer is very important. We believe that a good company is built on a good team, and taking care of them is vital. Lastly, it is essential to strike a good work-life balance."

**In 2022, we are most excited about...** "We have some fun and interesting projects lined up for handovers between January and February. One of our recently completed projects is actors Anushka and Aditya Seal's home in Mumbai. We also have an upcoming project in London and an ongoing one in Hyderabad."
