Quirk Studio

Location: Santacruz West, Mumbai

"This residence is designed for a very popular comedian and writer, with a succinct brief: A space that is contemporary, open, inviting and, crucially, a space that resonates with his personality. The study den is a personal haven, a recreational space housing an L-shaped 'wall of books'. The artiste's drum kit takes one corner, and a floating white desk takes another."

Ravi Vazirani Design Studio

Location: Tardeo, Mumbai

"At this apartment, we crafted a desk using a single live edge wooden plank. The intent was to keep the space multifunctional, and minimal. The focus is on the play of materials and, of course, the beautiful view helps. Little did we know how handy would this corner be in the past two years of our lives with the pandemic."
